## Piercer Chod Hook

The Piercer Chod Hook is a hook, which was perfectly developed for chod rig fishing with pop ups. However, it can also be used in Zig rig fishing and also for normal ground baits. Very stable, extremely sharp and equipped with Micro Barb.

Item-No.	Size
2400 304	4
2400 306	6

## Piercer Power Carp B-988 Balance

The Piercer Power Carp B-988 Balance was designed for heavily overfished waters. It has thinner wire than conventional models and yet it does not bent. Careful carp feel nothing when sucking in the bait and are hooked perfectly. Easy, extremely sharp and still super stable!

Item-No.	Size
2400 002	2
2400 004	4
2400 006	6
2400 008	8

## Piercer Power Carp B-988 Balance

Item-No.	Size
2400 102	2
2400 104	4
2400 106	6
2400 108	8

## Piercer Curve Shank

The Piercer Curve Shank has one of the most popular but also most functional hook shapes. Equipped with a microbarb hook, it prevents premature slitting during the drill. Therefore, it is impossible to be bent and has a super sharp tip.

Item-No.	Size
2400 202	2
2400 204	4
2400 206	6
2400 208	8

## Piercer Boilie Hook

The Piercer Boilie Hook has the original form of a carp hook. Suitable for every area of the boilie table, equipped with the latest requirements, which a modern carp hook must fulfill. Stable, smooth surface, super sharp and with a straight eye.

2400 402	2
2400 404	4
2400 406	6

## Piercer Power Carp B-988 TGX

The shape of the Piercer Power Carp B-988 TGX is based on the old B-988 Power Carp, the most functional carp hook. Equipped with an extremely sharp and long tip provided with Microbarb, it safely finds a grip in every carp mouth. Extremely strong + stable for fishing in heavily weeded, obstacle-rich waters.coarse

### Piercer Ronnie Rig Series

The new Anaconda Piercer Ronnie Rig Range are state-of-the-art, as they are currently one of the most popular pop up rigs. And not without reason, because they are really easy to handle. You simply knot them in the desired length to the preferred hook link and you're ready to go. We offer the Ronnie Rig with 2 different types of hooks, the classic Piercer Curve Shank and - for very cautious fish - the Piercer Angle 90. All components used, such as Quick Change Swivel, or Boilie Spikes, come from the high-quality Anaconda Range. Both variants are available in sizes 4, 6 and 8.

### Piercer Ronnie Rig Curve Shank Micro Barb

2451 024	4	3
2451 026	6	3
2451 028	8	3

These ultra short Chod Rig mounts are among the most innovative rigs of recent years among insiders. The perfect anti-tangle casting properties guarantee an optimal bait presentation. In addition, the special shape increases the hooking effect even with very careful bites. Classically, a Chod Rig is fished as a helicopter rig with pop ups or balance boilies.
